**Subject: Contract Change Proposal #13, Additional Technical Manuals
for FOG**

**Reference: (a) Contract BC-200, as amended
(b) Letter dated 5 June 1957, TWM to WAS/BPM**

Dear Sir:

We concur in the recommendations in reference (b) regarding additional technical manuals for FOG, and herewith submit a proposal to supply these manuals. These technical manuals are needed to provide technical support for the three (3) Configurations C which are scheduled for assignment to FOG, and for certain items of ground support equipment for which technical manuals have not previously been provided.

In Amendment No. 5 to the reference (a) contract we contracted to deliver four (4) units of the Gyro Block and Vibration Detector Test Set. It is recommended that a technical manual be supplied to provide technical support for this item.

We, therefore, propose to furnish nine (9) printed copies and one (1) reproducible copy of each of the following technical manuals:

- HR-73-C Configuration System
- Model 73-C Film Drive
- Model 73-C Shutter and Automatic Exposure Control
- Model 73-C Rocking Mirror and Drive
- Model 73-C Programmer and Electrical System
- Model 73-C Optics and Optical Structure
- Model 73-C Stabilizer
- General Tools and Test Equipment
- Test Stands, General
- IMC Test Accessories
- Gyro Block and Vibration Detector Test Set

The requirement for a technical manual for the Model 73-C Cassette no longer exists as we have included the technical data for the Model 73-C Cassette in the technical manual for the HR-73-C Configuration System.

The sales price for these technical manuals is as follows:

	<u>Unit Price</u>	<u>Total Price</u>
Nine (9) Printed Copies	\$38.00	\$342.00
One (1) Reproducible Copy	50.00	<u>50.00</u>
Total price per set		\$392.00

It is recommended that these eleven (11) sets of technical manuals be added to Schedule II of the reference (a) contract for a total contract price increase of \$4,312.00. Delivery of all technical manuals proposed herein will be complete thirty (30) days from receipt of order.

We trust that this proposal will meet with your favorable consideration.

Very truly yours,

HYCON MFG. COMPANY
